

Driving Your Business!

with the very best **tax & accounting services**

Through our Tax & Accounting Services, we partner to deliver the expertise to help Independent Owners manage both your financials and your business. For a flat fee per truck, you get unlimited business advice and the accurate financial information. Let us handle the complex and time consuming tax and accounting tasks so you have the information you need to operate your business successfully.

FINANCIAL SERVICES

We offer a range of business Tax & Accounting Services including:

- Federal Income Tax Returns
- State Income Tax Returns
- Monthly Profit & Loss Statement
- Quarterly Estimated Tax Forecast
- Cost/Revenue Per Mile Analysis
- Cash Flow Projections
- Profitability Analysis
- Guidance on Business Formulation (LLC, Inc. Partnership, etc.)

THE PROCESS

An up-front meeting establishes the basic flow of information. From there, we provide you with monthly P&L information, quarterly estimates and the tax filings for your business.

Payments for Tax & Accounting services can be made through a convenient settlement deduction process. It's easy and efficient.

THE RESULT

By managing your financials throughout the year, you can manage your business to make sure it's operating successfully and to make sure there are no surprises at tax time.
